Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of invention claimed in claims 1-15 in the reply filed on 3/31/08 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites the limitation "said second distal surface" in lines 4-5. There is insufficient antecedent basis for this limitation in the claim.

Claims 9-13 dependent on claim 8 are therefore also rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3773

2. Claims 1-10, 14, and 16-20 are rejected under 35 U.S.C. 102(b) as being anticipated by BARBUT et al (5,769,816).

As to claim 1, BARBUT (Figs. 6-7) discloses a filter device having a first given perimeter defined by rib (351), entrapment mechanism (seal 317, passage 320, passage 312, syringe 307) having a selective opening defined by distal perimeter of seal (317) forming a second given perimeter. The selective opening has a restriction mechanism (320, 312,307) for injection of saline or gas to seal (317). The first perimeter defined by rib (351) and the second perimeter defined by distal perimeter of seal (317) form a chamber for entrapping debris from the vascular system of a patient.

As to claim 2, BARBUT (Figs 6) discloses cannula (350).

As to claim 3, BARBUT (Figs. 6-7) discloses deployable frame (316, 322).

As to claims 4-5, BARBUT (Figs. 6-7) discloses compliant outer cuff or seal (317) surrounds deployable frame (316, 322).

As to claim 6, BARBUT (Figs. 6-7) discloses radially expandable cuff or seal (317).

As to claim 7, BARBUT (Figs. 6-7) discloses filter device comprising filter bag (318).

As to claims 14-15, BARBUT is capable of allowing blood flowing through a systolic blood flow or a first direction and a diastolic or a second direction.
